The Best Is Yet To Come

Hard times, hand to mouth, down and out, all those
Hard times
But we've seen the seasons turning
As we weathered every storm
And the climate of our loving
Is so tender and so warm

And the best is yet to come
This is only the beginning
And we've only just begun
To realize the best is yet to come

Heartache, more or less so useless, all the Heartache
But when the flood of sudden tears came down
We smiled and stood our ground
And the laughter we'd been counting on
It finally came around

And the best is yet to come
And it's getting so much better
Than anything I've known
And I know — oh, yes — the best is yet to come

NURSING IS:

LIFE'S PATH

To grow in love and understanding of oneself and place in life
To find that there is more to life than merely living
To mature in wisdom and truth through times of joy and sadness
To allow one's love to flow generously to many from far and wide.
And to know that in all things and through all times that God is on your side.

Wanda Floyd

YOUR GOAL

To know what your goal is
in life
To be willing to give of yourself
Mind, body, and soul, your
entire being — 100%
To achieve that which is
yours alone
Is to know what your
goal is in life
To its fullest extent

Wanda Floyd

Fluting

Jane Junior's All-Nighter

Fluting Oct. 5, 1977

Fluting is a ceremony marking six weeks clinical experience for juniors.

Traditionally, this six weeks has been regarded as a time to measure progress made by individual students. If evaluated satisfactorily, each junior was allowed to flute her caps and continue with the nursing program.

The ceremony no longer marks the end of a probationary period. Instead, it has evolved into a night of celebration as the Seniors extend their friendship and a warm welcome to the Juniors.

After an evening of skits, songs, and laughter, the event concludes with fluting of the Junior caps and pinning of a silver bar for the men in the class.

But the Learning Never Ends

Good Times, Good Friends

Another Part of Our Lives at UMAB

Just when I think I have learned the way to live, life changes and I am left the same as I began. The more things change the more I am the same. It appears that my life is a constant irony of maturity and regression, but my sense of progress is based on the illusion that things out there are going to remain the same and that, at last, I have gained a little control. But there will never be means to ends, only means. And I am means. I am what I started with, and when it is all over I will be all that is left of me.

THE RN TEAM FACULTY: Kathy Henderson, Judi Mayer, Sally Parelhoff (Class Advisor), JoAnn Kessler, Francine Cohen.

Our faculty had mannerisms and characteristic words that are ingrained forever in our integrative subsystem. They all tried so hard to 'zero-in' on the Nursing Process, Community Nursing and Crisis Intervention. Did they succeed? Only time will tell!

Sally always 'shared' with us while Janet was 'in touch' and 'aware' of everything. While Barbara 'addressed' them, Francine got us through many 'sticky situations' with the aid of Harry Stack Sullivan. Judi, Pat and Norma did such a good job with

the role plays, they'll be auditioning for the Morris Mechanic Theatre next year. Donna, our 'boss,' was always 'trying to get it together.' Peggy admitted she couldn't spell; we cut a 'time pie' with Trish, but Kathy 'pieced' it all together in the end. Be sure to keep a close eye on the clock when headed for Jo's classes.

Now that it's over — Thank You, Faculty for guiding us towards June 2 and our BSN. We won't forget this year or you!!

STRINGING

Spring 1977

The Nightingale Cap

The University of Maryland nursing cap is among the oldest in the world. It was designed by Florence Nightingale for those nurses who graduated from St. Thomas' Nursing School in England. One of those graduates, Louisa Parsons, opened the University of Maryland School of Nursing and the cap and tradition was carried to America. The original cap was made of one row of point d'esprit lace which was gathered together and fluted. The cap we receive has been modernized, including additional rows of lace and the nurses' initials embossed on the crown. Stringing at the University of Maryland School of Nursing is a traditional ceremony involving the processes of: stringing a long piece of thread through the fluted edges of the cap; drawing the edges together; and fitting the cap to the head of the individual.

Jewish Students' Association

This year a new student group was formed on the UMAB campus, appropriately called "The Jewish Students' Association of UMAB." By mid-February, we have already had two huge successful functions: a Chanukah party held in December and a wine and cheese get reacquainted party held in February. Both activities were attended by over 100 persons. Future events are being planned and with continued support they should be as successful as our past events!

NURSING ANYONE?

The Florence Nightingale Pledge

I solemnly pledge myself before God and in the presence of this assembly, to pass my life in purity and to practice my profession faithfully. I will abstain from whatever is deleterious and mischievous, and will not take or knowingly administer any harmful drug. I will do all in my power to maintain and elevate the standard of my profession, and will hold in confidence all personal matters committed to my keeping, and all family affairs coming to my knowledge in the practice of my calling. With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.

THINK NURSING THINK LEADERSHIP

Nursing ain't no bed of roses

Your Friend the Pancreas by Alan Gaby

Many people do not realize what a true friend the pancreas is. When your blood contains too much sugar, your pancreas comes to the rescue with insulin. When there is not enough sugar in your blood, that little piece of sweet bread provides you with glucagon. Long after Alka Seltzer ushered in the era of civilized man, that little organ with a head and a tail was plop-plop, fizz-fizzing amylase, lipase, peptidases, and other digestive enzymes into your gut to help you utilize the bolus of food with which men's stomachs had been perennially stuffed. While people have, for ages, been making great demands on the pancreas, this little endocrine entity has stood like a flying buttress against the chapel of pythonic engorgement.

Then came a new insult to our biochemical buddy: the scourge of recent evolution; the pure, refined, white powder resembling heroin so much in its appearance and addictive properties that historians have been puzzled by its legality; the crystal carbohydrate that has contributed so to the decay of our society that the brand name under which it was sold was named after the Domino Theory.

So you're addicted to sucrose; you've got the sugar blues. Your friend with the happy hormones cannot handle your addiction. You down your sugar and this purified powder rushes into your system like a drop of ink would equilibrate in a glass of water. Your blood sugar level is then grossly elevated, and your body in crisis. Your poor, unmutated pancreas panics at the sight of this new event: the rapid rise in blood sugar. It does the only thing it knows how under the circumstances; it POURS insulin into your blood to get rid of this excess sugar. But unfortunately, it pours in too much insulin. Next thing you know your blood sugar is too low, rather than too high. Your brain is not getting enough fuel; you are hungry, nervous, sweating, depressed, and irritable. And you crave the one item that you know will most rapidly bring your blood sugar back to normal and relieve you of your misery: the white powdery stuff. The vicious cycle moves on. Your poor friend the pancreas is overworked and uncared for. It will not be your friend forever.

Congratulations to the FLORENCE NIGHTINGALES OF 1978

Best Wishes, Harold

EAVING DUR HOUGHTS REHIND BASIC WORKING PAPERS CARE PLANS UMAB STUDENT COUNCIL

My dear friends of the class of '78,

In the two years I have been associated with the school of Nursing, in both a full time and part-time capacity, I can honestly say that I have enjoyed your company. Although I won't be graduating with you, I can't help but feel a sense of loyalty and love toward all of you. Unfortunately, it has not been my pleasure to have met every one in the class, therefore my message may mean more to some than to others. Nevertheless I congratulate all of you and wish you much happiness. For those of you who laughed with me, cried with me, and in general "shared" your lives with me these past two years, a special THANK YOU is in order. Never in my entire life have I loved or been loved as much as in these past two years. You are special people and whatever you decide to do after graduation; whether it be in the Health Profession, the field of entertainment, or whether you decide to be a truck driver, domestic engineer or a farmer, my heart will be with you always. Since I could not personally congratulate and thank each one of you, I would like to leave you with a few things to remember. Some you will recognize and some you won't. Some you might forget and others will remain a part of you.

Can you REMEMBER . . . the first day you wore your uniform?

. . . your first Concepts exam?

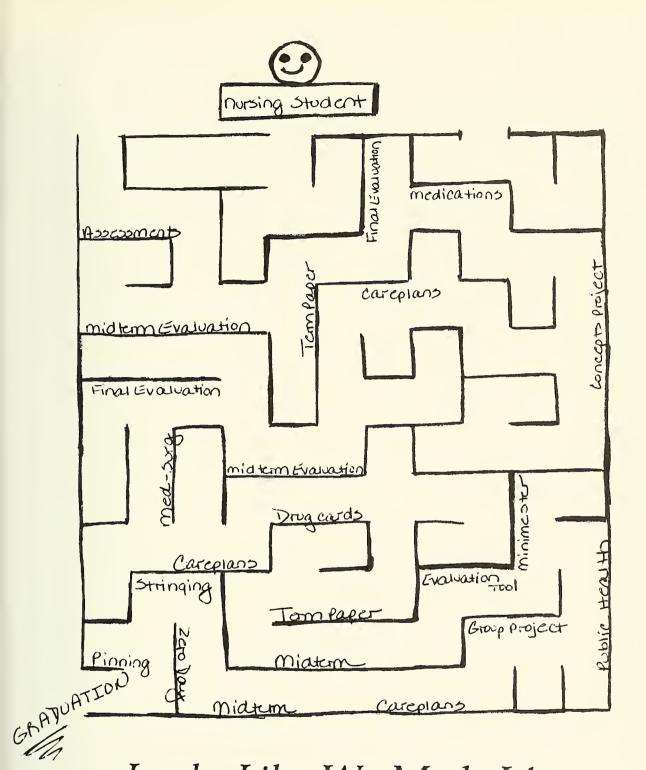

```
. . . IPR?
. . . your first Care Plan?
. . . Fluting 1976 and 1977?
. . . your first injection and whom you gave it
. . . Pre and Post clinical conferences
. . . where you are coming from?
. . . all-nighters c or s coffee?
. . . free chewing gum in lecture?
. . . Nina and the Parsonettes?
. . . Alarm Clocks?
. . . The Pub and Dave as our resident Psychologist?
. . . The Goatropers (Spitz, Dewey, and Red Neck Mama)?
. . . Room 110 Parsons Hall?
. . . The first Gong Show at the Pub?
. . . the A.V. Lab? (Smile — it's over now)
. . . eating on the run?
. . . forgetting to eat?
. . . the "ozone" triplets?
. . . good old number 75?
. . . Nursing and Society Post-class BUZZ*OUTS?
. . . Loving — Caring — Sharing — Laughing and Crying?
. . . your family?
. . . your friends?
. . . God? (He helped!)
. . . Thursday nights at the Pub?
. . . you can't save the world by yourself — you need help?
. . . "what Peace there may be in silence. As far as possible without surrender be

others, even the dull and ignorant; they too have their story . . . If you compare
yourself with others, you may become vain and bitter; for always there will be
greater and lesser persons than yourself. Enjoy your achievements as well as your
plans. Keep interested in your own career, however humble; it is a real possession
```
